

OCEAN (CARIBBEAN) DISTRIBUTORS, INC.

Streamline Medical Supplies &
Personal Care Procurement

Corporate Overview

We're in the business of assuring every client they can depend on us for excellence in customer care, logistics, and follow through. For example, over the past three years we've fulfilled over 15,300 units of products and medical supplies across hundreds of customers in the U.S. and Caribbean Territories.

Our initial start in federal government contracting began years ago, as a manufacturer of toiletries and fragrance products. We successfully supplied products to AAFES Exchange Stores on numerous bases across the country, including what is now Joint Base Andrews. More recently, during the early days of the pandemic, we re-entered the federal contracting space. The high demand for items like hand sanitizer and liquid soaps, which were already a part of our existing toiletries line, allowed for a seamless transition to scale to the distribution of medical supplies, resulting in our first federal contract with the National Institutes of Health.

Most recently, we are very proud to represent the premium feminine period product solution with in-install dispensers to enhance restroom amenities while promoting dignity and well-being for female employees, clients, and visitors. The parent company is well-established and has a client base that includes many Fortune 500 companies.

Past Performance

EXCHANGE
ARMY & AIR FORCE EXCHANGE SERVICE

Core Competencies

- ✓ Medical Equipment & Supplies
- ✓ Personal Care Toiletries
- ✓ Feminine Period Products with In-Install Dispensers

Ocean Differentiators

- ✓ 95% On-Time Delivery
- ✓ Strategic Blend of Client/Business Relationships
- ✓ 30 Years of Manufacturing Expertise
